Why are you blocking Uber in SC? That makes absolutely no sense as Uber is one of the greatest services I've seen when it comes to transportation in a long time (I travel a lot, all over the country). Is it because the service is TOO good and as such the established, out-dated businesses (like taxi companies) are having a hard time competing? The fix for that is that they need to catch up, rather than penalize a legitimate business that consumers love!!

Clearly you have interests other than the consumer in mind, and please think about this in the future before doing something like this. Please recall this order and allow Uber to continue in SC!

This country was founded on principles of free market, capitalism and the entrepreneurial spirit, and Uber is a great example of this!!

Thanks,
John

Why I love Uber?

It provides safe rides for me and my family.

If I call a cab, it takes 30 minutes for them to arrive. Uber traditionally gets there in a few minutes.

Clean cars and friendly people.

No cash transactions.

Uber is awesome.

Please do not stop a service that is great for the people of South Carolina.

TJ Sack

I recognize and applaud the need for regulation in the transportation market, but banning Uber outright rather than working with them is really only alienating the public that wants this service. Protecting an old business model for the entrenched taxi companies doesn't help the public get what it wants: safe, easy to use transport that's there when they want and need it. Uber didn't come to SC just for the sake of disrupting a market that hasn't changed in decades—they came because there was market demand for their service. I urge you to work with rather than against them in coming to an amicable resolution.

Thanks for your time,
Alex Tillotson

Uber is a fantastic service. I have no idea why you would not allow them to operate in SC.

Subject: SC needs Uber

I am writing to support Uber and ask that you continue to allow them continue to provide safe, affordable and reliable rides in SC.

When a limo company forgot about our reservation to be picked up in Sullivan's Island, SC to go to the airport, we called Uber. I had never used Uber before and it was just a coincidence that I had downloaded the Uber app earlier that morning. It never occurred to me I would be in a situation to need Uber, but United Airlines paid me 500 miles to download it. I requested a ride and was immediately informed a driver would be there in 5 minutes. It seemed unreal and too good to be true so I called the driver to make sure that I understood that she would really, really be there in 5 minutes and could get us to the airport on time !!! If not for Uber, my husband and I would have missed our flights costing us hundreds of dollars and undeniable inconvenience.

Since then we have used Uber to provide rides to and from the city of Charleston on evenings we were not sure it would be lawful for us to drive ourselves home.

Thank you for your consideration,

Susan Heller
